ENERGY & WEATHER PERFORMANCE

- DESIGNED FOR MAXIMUM WEATHER RESISTANCE AND ENERGY EFFICIENCY
- AVAILABLE IN 28MM OR 40MM PANEL SIZES
- DOUBLE AND TRIPLE GLAZING OPTIONS
- 15 YEAR GUARANTEE ON PANELS, FRAMES AND GLASS

ENERGY & WEATHER PERFORMANCE

Inliten Panel Doors are designed for optimum performance. Manufactured using the toughest and most durable materials, Inliten doors are guaranteed to retain their shape and form, will not rot or warp, and require only the minimal amount of maintenance.

All panels and glazing units in the Inliten door collection offer excellent energy efficiency properties. The core materials of the door panel are bonded together to achieve the highest levels of thermal efficiency. Multi-chambers within the door frame further increases the energy performance. As a result, all Inliten Panel Doors come with an 'A' energy rating as standard.

DOOR MATERIALS

Constructed from compact styrofoam, layers of solid MDF and PVCu inner and outer skins, our panels offer superb levels of strength, durability and energy performance.

ENERGY EFFICIENCY

The core materials of the panel are bonded together, ensuring the highest levels of thermal insulation. For maximum energy performance, select a 40mm panel with a triple glazed unit.

WEATHER PERFORMANCE

Inliten Panel Doors offer excellent weather performance properties as standard. The weather-resistant PVCu outer skins and rain deflectors help protect your home during harsh weather conditions.

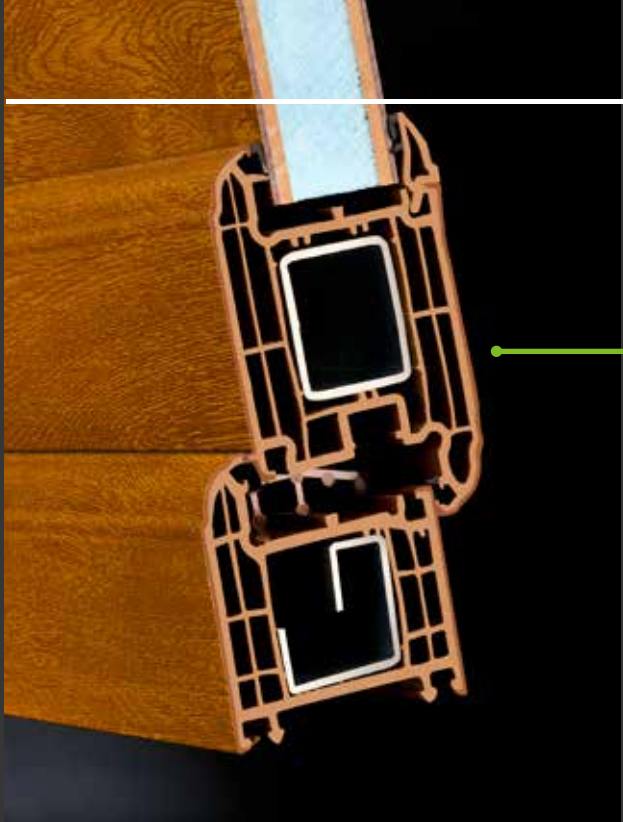

DOUBLE & TRIPLE GLAZING

Our high performance double and triple glazing units provide excellent insulation and noise reduction. Decorative designs in triple glazing are fitted to the middle pane, protecting them from the elements.

STRENGTH & SECURITY

- 70MM INLITEN FRAME WITH STEEL REINFORCEMENT
- ADVANCED MULTI-POINT LOCKING SYSTEM
- HIGH IMPACT RESISTANT DESIGN
- HIGH PERFORMANCE HARDWARE AND FURNITURE

STRENGTH & SECURITY

Constructed from tough, durable PVCu outer-skins, rigid Styrofoam and layers of solid MDF, Inliten Panel Doors offer outstanding levels of strength and impact-resistance. Designed for maximum security, high performance, advanced multi-point locking systems are fitted to all Inliten doors as standard to ensure your home is kept safe and secure.

STRENGTH & SECURITY

Available with either a 28mm or 40mm panel thickness, Inliten Panel Doors are extremely strong, durable and robust. Glazing units can be toughened or laminated for extra security.

HIGH SECURITY LOCKING

Keeping your home safe and secure is of utmost importance; which is why all Inliten Panel Doors feature multi-point locking mechanisms as standard. Secured by Design options are also available.

ADVANCED LOCKING

For optimum security, select a hook lock option. Hooks are located at the top and bottom of the locking system and slot firmly into keeps located on the steel reinforced door frame.

FLAG HINGES

Our doors feature high performance flag hinges to further improve the security and durability of the door. The hinge is 3D adjustable, enhancing ease of use and high visual appeal.

COLOUR & GLASS OPTIONS

Bevels & Lead

GLASS OPTIONS

For a stunning look, choose one of our handcrafted decorative glass designs. Each decorative glass unit is handcrafted in our in-house glass studio and includes a range of intricate designs featuring bevels, tiles, lead, coloured resin and sandblast designs. Decorative glass options are available for both double and triple glazed applications.

In addition to clear glass, we also offer a range of textured/obscure glass options which are designed to enhance the privacy and security of your home. The textured range includes:

Resin & Lead

Flemish

Minster

Charcoal Sticks

Stippolyte

Taffeta

Cotswold

Contora

Autumn Leaf

Oak Leaf

COLOUR OPTIONS

Choose from our wide range of panel colours and finishes, from a traditional grain-effect, foiled oak finish to a more contemporary charcoal finish. Alternatively, you can personalise your door by choosing a sleek spray painted finish to the RAL colour of your choice. Door frames are available to match your door colour selection. In addition to white, the foiled colour range includes:

Whitegrain

Oak

Cream (RAL9001)

Black (Bog Oak)

Red (RAL3011)

Mahogany

Rosewood

Blue (RAL5011)

Green (RAL6009)

Charcoal Grey (RAL7016)

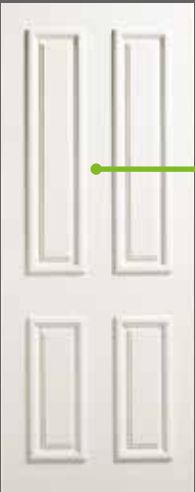

Please note that all RAL coloured finishes in this brochure are for illustration purposes only. Please refer to the RAL colour chart when ordering.

STABLE DOORS

Designed for convenience, versatility and aesthetic appeal; stable doors are ideal for new build homes or replacement projects, adding extra character to all house types.

Stable doors feature multi-opening facilities: with a glazed top opening and a solid panel bottom opening. These sections can be opened as separate facilities and independent of one another, or alternatively can be opened as a complete unit.

Stable doors may feature a glazing unit or panel/glass unit in the top half of the door, and a solid panel in the bottom half of the door. Alternatively the top section may also be fitted with an Inliten Tilt & Turn Window.

HALF PANELS

Half panel options allow for a larger glazing area and are ideal if you require extra light into the home.

Half panels are suitable for back door applications, giving extended views over the garden or surrounding area. If you require extra privacy and security, select a textured glass option.

Sidelights available as full or half panel.

Additional Options:
Personalise the top section of your half panel door with a mullion and decorative glass option.

SIDELIGHTS

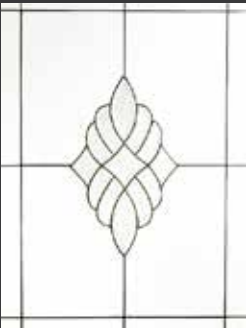

To further enhance the aesthetic appeal of your panel door, single and double sidelight options are available.

Sidelights may feature a full glass pane, or a half pane/half panel combination.

Select from a decorative glass design or a textured/obscure glass option. We also offer a range of sidelight panel options designed to match your chosen door panel.
